## Chapter 1

# About the AutoStore client for Sharp MFP (OSA)

The Sharp MFP (OSA) component allows you to capture documents from any OSA enabled Sharp MFP device and route the documents to any of the route destinations that are supported by the server.

Specific hardware and software compatibility requirements are outlined in this document. You must meet these requirements to support this client. These requirements specifically list the needs of the embedded client for Sharp MFP OSA and do not include any additional requirements for other components you might use in your system.

## Chapter 2

# Product requirements

## Product components
