Chapter 1

About Kofax Copitrak Edge technical specifications

Kofax Copitrak Edge is a software solution designed to run on dedicated Copitrak Edge hardware or a properly specified tablet to provide cost recovery capability at the MFP without the need for an embedded solution. The technical specifications in this document are specific to Copitrak Edge 2.6.0.

A required amount of memory and disk space is provided. You must meet these requirements to support your Copitrak Edge system. These requirements specifically list the needs of Copitrak Edge and do not include any amount of memory or disk space you require for the operating system, environment, or other software that runs on the same machine.

This document type typically includes the following sections.

Chapter 2
