Preface

Kofax Analytics for TotalAgility® provides the insight and metrics required to analyze the effectiveness of your business processes. The technical specifications in this document are specific to Kofax Analytics for TotalAgility 1.5.0.

A required amount of memory and disk space is provided. You must meet these requirements to support your Kofax Analytics for TotalAgility system. These requirements specifically list the needs of Kofax Analytics for TotalAgility and do not include any memory or disk space you require for the operating system, environment, or other software that runs on the same machine.

System architecture

The following diagram illustrates the data flow from Kofax TotalAgility to Kofax Analytics for TotalAgility.

i If you plan to extend Kofax Analytics for TotalAgility to include Kofax Analytics for RPA views, both the projects must be installed on the same instance of Kofax Insight.

Product requirements

The hardware recommendations vary depending on the deployment scenarios. Refer to the *Kofax Analytics for TotalAgility Administrator's Guide* and *Kofax Insight Technical Specifications* for more information.
