Technical Specifications

Kofax Export Connector for Documentum Content Server copies document images, OCR Full Text files, Kofax PDF documents, and eDocuments to permanent storage and writes data from Kofax Capture, KofaxTotalAgility, or Kofax Express into the Documentum Server repository.

The technical specifications in this document are specific to Kofax Export Connector 8.2.0 for Documentum Content Server.

To support your export connector product, verify that the requirements listed in this document are met, including the amount of memory and disk space. These requirements apply specifically to Kofax Export Connector 8.2.0 for Documentum Content Server and do not include any amount of memory or disk space required for the operating system, environment, or other software that may be running on the same server or workstation.
