About Kofax Mobile Deposit Capture

Kofax Mobile Deposit Capture captures checks and other financial instruments on mobile devices for deposit. It runs as a project in Kofax Transformation or Kofax TotalAgility. The technical specifications in this document are specific to Kofax Mobile Deposit Capture 2.0.0.

Because Kofax Mobile Deposit Capture is run from Kofax Transformation or Kofax TotalAgility, the requirements to support Kofax Mobile Deposit Capture are defined by the Technical Specifications for those products.

To promote accuracy by avoiding redundancy, the [Product Requirements](#) table includes links to those Technical Specifications. The referenced Technical Specifications list additional compatible Kofax software, such as Real-Time Transformation Interface and Kofax Mobile Capture SDK. See the Technical Specifications for those products for additional details.

Product Requirements

Specification	Description
Required Kofax Software	Kofax Transformation version 7.0.0.5 or later See Kofax Transformation Technical Specifications . or Kofax TotalAgility version 7.11.0 or later See Kofax TotalAgility Technical Specifications .
