About this release

The release notes give you late-breaking information about Kofax SafeCom Reports 10.530.0. Please read this document carefully, as it contains information that is not included in other Kofax SafeCom documentation.

Version information

This Kofax SafeCom Reports product is identified by build number 10.530.0.0.56.

System requirements

See the *Kofax SafeCom Reports Administrator's Guide* for general technical or network requirements.

For information on supported operating systems and other system requirements for Kofax SafeCom, see the *Technical Specifications* document on the Kofax SafeCom Product Documentation page. The document is updated regularly, and we recommend that you review it carefully to ensure success with your Kofax SafeCom product.

Product documentation

The Kofax SafeCom product documentation set consists of the guides and release notes to assist you with installing, configuring, and using the product.

The product documentation is available online:

https://docshield.kofax.com/Portal/Products/SafeCom/10.530-jaah72kksf/SafeCom.htm

New features

This section contains information about the new features included with Kofax SafeCom Reports 10.530.0.

- Support for TLS 1.2 encryption in the communication to the SQL Server. This feature requires version 11 or above of the ODBC driver for SQL Server. For more information, refer to the *Kofax SafeCom Reports Administrator's Guide*.
- Support for the user redaction feature introduced in SafeCom G4 Server 10.530.0.

Resolved issues

This section lists previously reported issues that are now resolved.

Incorrect job/page counts

26177644: User statistics reports previously displayed incorrect job or page counts.
